

Western Cooling Challenge

August 13, 2009 Announcement

UC Davis Press Release

October 27, 2008 Announcement

The UC Davis Western Cooling Efficiency Center (WCEC) is pleased to announce that the Western Cooling Challenge (WCC) is well underway, with a good group of participating manufacturers.

The twelve companies that have committed to participating in the Western Cooling Challenge are shown here. Seven are participating as Original Equipment Manufacturers (OEMs). Two are participating as OEMs and as component suppliers. Three are participating as component suppliers.

The schedule for the WCC is:

- January 2009: Laboratory testing of WCC entries can begin
- June 2009: Field-testing of WCC entries can begin
- January 2010: Shipments of WCC compliant products can begin
- Production products must be available by January 1, 2011

For more information, see the October 27 program announcement the WCC program requirements, and the UC Davis Press Release.
